## SUMMARY

Cloud Engineer with 7 years operating multi-account AWS and Azure landing zones for streaming and fintech SaaS workloads at Netflix and Stripe. Cut monthly cloud spend 32% via Reserved Instance rebalancing and Savings Plans, while sustaining 99.99% workload availability across 280 EC2 instances and 22 EKS clusters. AWS Solutions Architect Professional, AWS DevOps Engineer Pro, and Microsoft Azure Administrator (AZ-104) certified.

## EXPERIENCE

### Staff Cloud Engineer

Oct 2022 - Present

Netflix

Los Gatos, CA (Remote)

Compute platform team for globally distributed streaming workloads at Netflix.

- Operated 22 EKS clusters (18k nodes) with Karpenter, holding 99.98% availability through 14 region-wide failover drills
- Replaced Calico with Cilium + Hubble across the fleet, cutting pod-to-pod P99 latency 41% and CVE exposure 63%
- Introduced cross-account cost allocation tagging that attributed 94% of $180M cloud spend, unlocking $4.7M in chargeback savings
- Shipped Backstage IDP with 140 golden-path templates; developer onboarding dropped from 3 days to 2 hours

### Cloud Engineer

Aug 2019 - Sep 2022

Stripe

San Francisco, CA (Remote)

Payments infrastructure reliability across AWS and GCP at Stripe.

- Designed multi-region Aurora + DynamoDB Global Tables supporting 14k TPS with 11 ms P99 read latency
- Rolled out Argo CD and FluxCD pull-based GitOps across 310 services, lifting deploy frequency from 4x/wk to 38x/day
- Automated PCI-DSS v4 controls with OPA Gatekeeper and AWS Config, eliminating 100% of manual audit evidence collection

## PROJECTS

### E-commerce Platform Migration

2020

Lead Cloud Engineer

Migrated a legacy e-commerce platform to AWS EKS + Docker, contributing to 50% higher conversion throughput and 20% infrastructure cost reduction.

AWS EKS • Docker • Kubernetes • Terraform

## SKILLS

AWS (EC2, EKS, IAM, VPC) | Azure (VMs, AKS, AAD) | Terraform & CloudFormation | Linux (Amazon Linux/Ubuntu) | FinOps & Cost Optimization | CloudWatch, Datadog, Azure Monitor | Python & Bash | CI/CD (Jenkins, GitHub Actions)

## EDUCATION

**Bachelor of Science in Computer Science** Aug 2014 - May 2018
Arizona State University Tempe, AZ
Computer Science GPA: 3.7/4.0

## LANGUAGES

English Native
Arabic Native

## CERTIFICATES

**AWS Certified Solutions Architect – Professional** 2022
Amazon Web Services
AWS Professional-level credential covering large-scale architecture.

**AWS Certified DevOps Engineer – Professional** 2023
Amazon Web Services
AWS Professional-level credential covering CI/CD, monitoring, and IaC.

**Microsoft Certified: Azure Administrator (AZ-104)** 2023
Microsoft
Azure infrastructure administration credential.
