SUMMARY

Data Scientist with 6 years at Uber and LinkedIn translating complex datasets into $40M+ in measurable business impact. Built the gradient-boosting dynamic pricing model serving 850M Uber rides annually, shipped a BERT-based skills-matching system that lifted LinkedIn job application-to-hire rate by 18%, and cut a feature pipeline from 11 hours to 2.4 hours. AWS Certified Machine Learning - Specialty and Databricks Certified ML Associate.

EXPERIENCE

Senior Data Scientist

Uber

Marketplace ML team owning dynamic pricing and supply forecasting.

Feb 2021 - Present Chicago, IL (Remote)

- Redesigned the surge-pricing gradient-boosting model in XGBoost, improving driver utilization by 14% and generating $28M incremental revenue annually across 50 markets
- Built a real-time supply forecasting system in Python + Spark Structured Streaming processing 2.4B trip events per day, cutting driver wait-time prediction error by 31%
- Designed an A/B testing framework on top of Uber's XP platform reducing test cycle from 6 weeks to 11 days, enabling 5x more experiments per quarter
- Mentored 3 junior data scientists through weekly 1:1s, structured project reviews, and a peer code-review rotation

Data Scientist

LinkedIn

Talent Solutions ML team - job recommendations and skills graph.

Jul 2019 - Jan 2021 Sunnyvale, CA

- Shipped a BERT-based skills-matching model, improving job application-to-hire rate by 18% across 800M members
- Reduced feature engineering pipeline runtime from 11h to 2.4h by migrating to Spark on columnar Parquet with adaptive query execution
- Delivered Looker dashboards used by 240 LinkedIn Recruiter premium customers to optimize outreach strategies, lifting InMail response rate by 9%

SKILLS

Python (pandas, NumPy, scikit-learn)

SQL

Apache Spark (PySpark, Spark SQL)

XGBoost / LightGBM PyTorch

AWS SageMaker / EMR

Tableau / Looker

Causal Inference and A/B Testing

Airflow / dbt Git / CI-CD for ML

LANGUAGES

English ●●●●●

Akan (Twi) ●●●●●

French ●●●○○

EDUCATION

Master of Science

The University of Chicago

Sep 2017 - Jun 2019 Chicago, IL

Statistics (Analytics Track) • GPA: 3.9/4.0

Bachelor of Science

Kwame Nkrumah University of Science and Technology

Sep 2013 - Jun 2017 Kumasi, Ghana

Mathematics • GPA: First Class Honours

CERTIFICATES

AWS Certified Machine Learning - Specialty

Jan 2023 Amazon Web Services

Designing, training, and deploying ML solutions on AWS at scale

Databricks Certified ML Associate

Sep 2022 Databricks

ML model development, deployment, and MLOps on Databricks

Data Science Intern -> Associate Data Scientist

Kellogg School of Management - Operations Lab

Research data scientist on retail logistics optimization studies.

Jul 2017 - Jul 2019 Evanston, IL

- Built an XGBoost model on 2 years of grocery POS data forecasting weekly demand within 8% WAPE for 4,200 SKUs
- Co-authored an INFORMS conference paper on dynamic shelf-replenishment heuristics that was cited 31 times

PROJECTS

OSS - rideshare-causal

Author and Maintainer

Mar 2024 - Jul 2024

Open-source Python library for double-machine-learning treatment effect estimation on ride-sharing experiments. 1.4k GitHub stars, integrated by 2 mid-size mobility startups.

Python • scikit-learn • EconML • PyTorch • GitHub Actions

Google Cloud Professional Machine Learning Engineer

Mar 2024 Google Cloud

End-to-end ML systems on Google Cloud (Vertex AI, BigQuery ML, Kubeflow)
